These strings and my custom James Trussart are the perfect match!
Lucinda Williams

XL™ ProSteels Round Wound

ProSteels utilize a highly magnetic, corrosion-resistant steel alloy that delivers a super bright tone without shrill overtones. They offer a palette of harmonically rich, brilliantly penetrating highs combined with pronounced, tight-and-tough lows. If you're looking for more crunch, bite, and sustain, ProSteels are the choice for you.

Item #	Scale	Gauge	Retail

I have been using D'Addario strings since the day I first picked up a guitar. To this day, they are the only strings I use.
Margo Price

XL™ Half Rounds

Half Rounds are round wound with stainless steel and then precision ground to leave the outer surface smooth and semi-flat. The result is tone and tension characteristics of round wound strings with a smoother feel similar to flat wound strings.

Item #	Scale	Gauge	Retail

EHR350	Jazz Light	.012-.052	$24.35

XL™ Pure Nickel Round Wound

D'Addario XL Pure Nickel strings look back to the '50s, when nickel was the primary alloy found in electric guitar strings. Pure nickel strings would be supplanted by nickel-plated steel in the '60s, when guitarists required brighter tone and enhanced magnetism. Pure Nickel brings back the richer, warmer timbres found in traditional blues, classic rock, rockabilly, and more.

Item #	Scale	Gauge	Retail

I'm an old-school tone guy. I prefer nickel on nickel; nickel strings on nickel frets. I like to feel that grind and resistance.
George Lynch

XL™ Chromes Flat Wound

D'Addario Chromes are the world's most popular flat wound strings. Chromes are wound with flattened stainless steel ribbon wire polished to an incredibly smooth surface, delivering a distinctively damped but tone-rich sound that only flat wounds can produce.

Phosphor Bronze Round Wound

D'Addario introduced Phosphor Bronze to string making in 1974, and it has become synonymous with warm, bright, and well-balanced acoustic tone. They are precision wound with corrosion-resistant phosphor bronze onto a carefully drawn, hexagonally shaped, high-carbon steel core, resulting in long-lasting, bright-sounding tone with excellent intonation.

80/20 Bronze Round Wound

Commonly referred to as brass, 80/20 Bronze is the original acoustic string alloy selected by John D'Addario Sr. and John D'Angelico in the 1930s. 80/20 Bronze strings are popular for recording due to their crisp, deep, and projecting tone, and they appeal to many traditionalists and vintage enthusiasts for their historical significance. All D'Addario acoustic strings are wound on a hexagonally shaped, high-carbon steel core, resulting in long-lasting, bright-sounding tone with excellent intonation.

D'Addario's Nickel Bronze strings have brought new life back into my guitar. The tone is balanced, organic and punchy. These are the strings to beat.

Richard On, O.A.R.

Nickel Bronze

Nickel Bronze strings are the premium uncoated acoustic string by D'Addario. Featuring an innovative combination of nickel-plated phosphor bronze wrapped around a high-carbon NY steel core, these strings bring out the unique tonal characteristics of any guitar, allowing its natural voice to truly shine. Nickel Bronze strings deliver enhanced projection, articulation and resonance, all with improved tuning stability and increased break resistance.

Flat Tops Phosphor Bronze

Flat Tops are round wound then precision ground, leaving the outer surface smooth and semi-flat. This produces a smooth, flattened playing surface, without sacrificing the superb tone and sustain associated with phosphor bronze strings. Flat Tops greatly reduce finger noise and are excellent for recording and flat-picking.

NYXLs exceeded my expectations. After putting my first set on my jazz, and warming my fingers up with them, I got lost in my head for a second from just really enjoying the feeling and tone I was getting. Then I realized it was from the change I had made in strings, and I was immediately sold.
Royal Masat

XL™ Nickel Round Wound

XL Nickel Round Wound electric bass strings are precision wound on our exclusive computer-controlled machines, ensuring each string has excellent intonation, clear fundamentals, and unparalleled consistency. Each string is wound with a nickel-plated steel wrap wire known for a distinctive, bright tone with excellent magnetic output, delivering a universally appealing and versatile tone for all playing styles.

Nickel wounds have the character that all bass strings must be measured by: bright, clear, snappy yet also full and completely consistent from set to set. I never have to adjust my setup and intonation when changing strings, they just work and sound great every time!
Adam Nolly Getgood, Periphery

XL™ Balanced Tension

D'Addario Balanced Tension bass sets are comprised of mathematically optimized string gauge combinations, resulting in greater control and playing comfort. Combined with the distinctively bright tone of XL Nickel Wound strings, each set offers greater dynamic control and a more consistent feel between strings for evenly balanced plucking, slapping, and bending.

XL™ ProSteels Round Wound

ProSteels are D'Addario's brightest and most magnetic bass strings. A specialized steel alloy delivers harmonically rich, brilliant high-end, coupled with deep, tight lows that work in tandem to create the coveted "piano tone" steel players crave. Great for both articulate fingering or aggressive picking, ProSteels give you the extra edge and punch you need to cut through the mix.

I've used D'Addario stainless steel strings for over 20 years, because they deliver the best quality strings... they're always great right out of the box, and I go through a LOT of strings. They just rock!
Bryan Beller

BASS GUITAR SETS

XL™ Nylon Tapewound

Designed to produce a deep, warm tone with a smooth feel, D'Addario Tapewound bass strings are wound using flattened black nylon polished to an ultra-smooth finish. These long-lasting, well-balanced strings are expertly engineered to provide optimal tension, and are gauged to fit properly on standard bass saddles and nuts. Tapewounds may be used on fretted or fretless basses, and are designed to deliver a vintage tone ranging from the thump of an upright bass to the focused depth of traditional flat wound strings.

We were working on *Evil Urges* when our producer suggested using D'Addario strings. Slapped them on our guitars and never looked back. Perfect tension and tone.
Tom Blankenship,
My Morning Jacket

XL™ Half Rounds

D'Addario Half Round bass strings are wound with pure nickel then precision ground, leaving the outer surface smooth and semi-flat while retaining the flexibility of round wound strings. D'Addario's exclusive heat treating process ensures that Half Rounds retain their round wound brightness and sustain.
